STATE PROJECT NO. H.005734
FEDERAL AID PROJECT NO. H.005734
LA 447 CORRIDOR STUDY
ROUTE LA 447
LIVINGSTON PARISH**

QUESTIONS AND ANSWERS

Q1.) Can you provide us with the DOTD labor hour estimate used to generate the \$601k lump sum fee, broken down by major category (e.g., Project Mgt/Admin, Traffic Engineering, Roadway Design, Bridge Design, HSM Analysis, Environmental, Noise & Air Modeling, Public Involvement)?

A1.) DOTD will not release the breakdown of the lump sum fee.

Q2.) Did the previous Consultant provided DOTD with the models used for traffic analysis? If so, will this information be given to the selected Consultant? Does the Department assume that the model is correct and that the selected Consultant will only need to revise input in terms of new traffic volumes, if warranted? Will additional compensation be given to modify the model for additional type of changes?

A2.) Models were provided under the February 2014 study. This information will be provided once job is awarded. The traffic study has been completed. Models are correct and volumes are correct. The study was completed in 2014. No additional traffic analysis is warranted. Any additional traffic studies will be handled by a Supplement.
