Question and Answer

October 6, 2020:

- Q1. The advertisement states, that in Section 12, the percentage estimated for each evaluation discipline should not be less than 5%. What should be entered for sub-consultants who will perform less than 5% of work?
- A1. The requirement that the percentage estimated for each evaluation discipline be not less than 5% has been eliminated. The consultant's proposal may reflect any percentage for each evaluation discipline identified; however, the evaluation disciplines must total 100%. As a reminder, the percentages for the prime and sub-consultants must total 100% for each evaluation discipline. An addendum will be issued today and the deadline will not be extended due to this change.

October 7, 2020:

- Q2. Can a consultant who was involved with the design of the project, be listed as a prime consultant or a sub-consultant for the Construction Engineering & Inspection (CE&I) of the same project?
- A2. For construction, engineering, and inspection (CE&I) contracts, consultants who were responsible for any final design services on a project will not be permitted to perform CE&I services on that project.
