Question and Answer

May 5, 2020:

- Q1. Can a consultant who was involved with the design of the project, be listed as a prime consultant or a sub-consultant for the CE&I of the same project?
- A1. For construction, engineering, and inspection (CE&I) contracts, consultants who were responsible for any final design services on a project will not be permitted to perform CE&I services on that project.

May 7, 2020:

- Q2. Does the section “Electronic Deliverables” on page 13 of 15 apply to this advertisement for CE&I?
- A2. Yes, this section applies to this advertisement.
- Q3. Please confirm whether or not the CEI team is to review/process/approve the contractors baseline and subsequent schedule updates as part of the CEI task. Is a copy of the latest version of Primavera Software to be made available to DOTD as is seemingly required on page 14 of 15? Is the Primavera Software to be special equipment?
- A3. The CE&I team will not review/process/approve the contractor's baseline and subsequent schedule updates as part of the CE&I task. The Primavera Software will not be required, but the CE&I team should have experience reviewing CPM schedules created in the Primavera Software.
