SCOPE OF SERVICES

The general tasks that the consultant may be required to perform are described more specifically in Attachment A, which is incorporated herein by reference. The selected consultant will perform the specific services covered in an Indefinite Delivery/Indefinite Quantity (IDIQ) contract as detailed in individual Task Orders (TOs), which will specify TO-specific scope of services, contract time, and compensation.

The consultant shall perform the work in accordance with the requirements of this advertisement, the resulting contract, and any TOs issued thereunder. Deliverables shall be in such format as required in Attachment A, unless otherwise specified in an individual TO. The work performed by the consultant shall be performed in a manner consistent with that degree of care and skill ordinarily exercised by members of the same profession currently practicing under similar circumstances.

MINIMUM PERSONNEL REQUIREMENTS (MPRs)

Each of the above criteria will receive a rating on a scale of one (1) through five (5). The rating will then be multiplied by the corresponding weighting factor. The rating in each category will then be added to arrive at the proposal’s final rating.

DOTD’s Project Evaluation Team (PET) will be responsible for performing the above described evaluation, and will present a shortlist of the five (5) (if five are qualified), highest rated consultants to the Secretary of DOTD. The Secretary will make the final selection.

ATTACHMENT C - SECONDARY SELECTION PROCESS

Description of Secondary Selection Process:

- There are two processes for selecting a consultant to award a task order
 - Task Order Query – consultants are sent a short questionnaire pertaining to a specific project. Consultants' responses are recorded and scored. The consultants are ranked according to numerical score, then the Right of Way Administrator recommends consultants for selection.
 - Task Order Justification – a memo is prepared explaining why a particular consultant is being selected for a task order rather than sending a query to a group of consultants. The Right of Way Administrator signs, recommending the selection. Common reasons for selecting a consultant instead of sending a query are:
 - Updating the consultant's own work on a project
 - Performing additional work on a project, previously performed by that consultant
 - Performing new work on a project adjacent or related to a project for which the consultant has previously performed services

Description of Task Order Query Process:

- When using the task order query process, consultants with IDIQ contracts for the appropriate service will be sent a task order query and a description of the work to be performed.
- Consultants are instructed as to when responses to each query are due. Once the responses are returned to Support Services, the responses are recorded and scored.
 - Tier 1 – Consultants are asked Yes/No questions to determine their interest and eligibility for the project. Additional eligibility requirement may be maintained by Support Services. Examples:
 - Are you interested in this assignment?
 - Can you meet our required completion date?
 - Do you and/or your firm meet specific minimum requirements for this assignment which are greater than the minimum requirement to be awarded a IDIQ contract?
 - Consultants who answer “No” to any of the previous questions are eliminated.
 - Tier 2 – Remaining consultants are scored based on information maintained by Support Services. The categories are:
 - Deliverables Due
 - Amount of Work Issued in the past 12 months
 - The intent of this tier is to distribute work as evenly as possible across the pool of IDIQ contracts.
 - The top four consultants advance to Tier 3.
 - Tier 3 – Remaining consultants are scored based on information provided in their task order query.
 - Proposed Delivery Date – consultants are provided the opportunity to propose a delivery date earlier than our required completion date. Not all projects may be accelerated. Support Services may alter this date based on weekends, holidays and/or other factors to best meet the needs of the project.

CONTRACT NO. 40000202, 40000203, 40000204, 40000205 & 40000206

- Experience – consultants are asked report specific experience relevant to the project. These responses are evaluated and scored.
 - Consultant Evaluation System (CPE) – the consultants’ scores from the CPE System over the previous five years are averaged.
- Final Scores – The scores from Tier 2 and Tier 3 are weighted to generate a final score as follows:
 - Deliverables Due – 20%
 - Work Issued in Past 12 Months – 15%
 - Proposed Delivery Date – 20%
 - Experience Relevant to Project – 15%
 - Consultant Past Performance Rating – 30%
- Consultant Ranking and Recommendation for Selection
 - Once the consultants are ranked by final score, the Real Estate Section Task Manager has an opportunity to review the responses and provide comments to the Real Estate Administrator.
 - The Real Estate Administrator reviews the ranking and any comments provided, then recommends a consultant or consultants for selection.
 - Should the Real Estate Administrator wish to recommend a consultant or consultants other the highest ranked, a justification will be provided the Chief, Project Development Division along with the recommendation for selection.
