RE: Selection Justification

Contract No. 4400022581

I-10 N.O. CBD3 and N.O. CBD4

Project Short List

In accordance with Louisiana Revised Statute 48:293, this memorandum serves as justification for selection of Modjeski and Masters, Inc. (Number 2).

The advertised project description provides that the scope of services include that the selected consultant will provide engineering and related services to develop construction plans related to structure and support design for an Interstate signing project. The existing I-10 route is in need of new overhead sign trusses, new overhead cantilevers, new small signs, and new brackets and supports required to mount these sign structures onto existing bridges. All services performed and provided are in accordance with DOTD's Standards and Procedures.

The shortlist identifies Stantec Consulting Services, Inc. as number 1, Modjeski and Masters, Inc. as number 2, and AECOM Technical Services, Inc. as number 3 in overall rank. However, I am selecting Modjeski and Masters, Inc. in an effort to ensure that work is being adequately spread across this industry for the type of work being performed. I look to recent awards as an indicator in making these determinations and considered the closeness in scoring.

For these reasons and as identified above, I have selected Modjeski and Masters, Inc. (Number 2).
