Evaluation Criteria

An evaluation process will be used in the selection of the Consultants. The criteria to be used by DOTD in evaluating responses for the selection of a consultant to perform these services are:

1. **Consultant's firm experience:**
weighting factor of 3.
2. **Consultant's personnel experience:**
weighting factor of 4.
3. **Consultant's firm size as related to the project magnitude: ***
weighting factor of 3.
4. **Consultant's past performance on DOTD Real Estate Projects:**
weighting factor of 6.
5. **Consultant's current work load with DOTD: ***
weighting factor of 1.

6. Location where the work will be performed: *
weighting factor of 4.

***All consultants will be given a score of five (5).**

All consultants will be evaluated as indicated in Items 1-6. The evaluation will be by means of a point-based rating system. Each of the above criteria will receive a rating on a scale of 1-5. The rating will then be multiplied by the corresponding weighting factor.

Evaluation will be based upon the information provided in the Consultant's SF 23-119 submittal. If during the course of the evaluation the Project Evaluation Team has questions or requires clarification of the information provided, the Project Evaluation Team may send a request to the consultant for additional information through the Real Estate Contract/Grants Reviewer.

The consultants will receive a rating of 0 on any of the individual evaluation criterion for failing to meet the minimum personnel requirements.

Once each DOTD Project Evaluation Team member completes evaluations for all items, the scores for each item will be averaged then multiplied by that item's corresponding weighting factor. The values for each item will be totaled to arrive at a final score.

Below are the proposed Team members. DOTD may substitute for any reason provided the members meet the requirements of R.S. 48:291.

1. Debra Milstead
2. Ronald Powell
3. Robert Richard

5. Kiawasha White

DOTD's Project Evaluation Team will be responsible for performing the above described evaluation, and will present a shortlist of the seven (if seven are qualified) highest rated Consultants to the Secretary of DOTD. The Secretary will make the final five selections.

Secondary Selection Process

Description of Secondary Selection Process:

- There are two processes for selecting a consultant to award a task order
 - Task Order Query – consultants are sent a short questionnaire pertaining to a specific project. Consultants' responses are recorded and scored. The consultants are ranked according to numerical score, then the Right of Way Administrator recommends consultants for selection.
 - Task Order Justification – a memo is prepared explaining why a particular consultant is being selected for a task order rather than sending a query to a group of consultants. The Right of Way Administrator signs, recommending the selection. Common reasons for selecting a consultant instead of sending a query are:
 - Updating the consultant's own work on a project
 - Performing additional work on a project, previously performed by that consultant
 - Performing new work on a project adjacent or related to a project for which the consultant has previously performed services

Description of Task Order Query Process

- When using the task order query process, consultants with IDIQ contracts for the appropriate service will be sent a task order query and a description of the work to be performed.
- Consultants are instructed as to when responses to each query are due. Once the responses are returned to Support Services, the responses are recorded and scored.

- Tier 1 – Consultants are asked Yes/No questions to determine their interest and eligibility for the project. Additional eligibility requirement may be maintained by Support Services. Examples:
 - Are you interested in this assignment?
 - Can you meet our required completion date?
 - Do you and/or your firm meet specific minimum requirements for this assignment which are greater than the minimum requirement to be awarded a IDIQ contract?
 - Consultants who answer “No” to any of the previous questions are eliminated.
- Tier 2 – Remaining consultants are scored based on information maintained by Support Services. The categories are:
 - Deliverables Due
 - Amount of Work Issued in the past 12 months
 - The intent of this tier is to distribute work as evenly as possible across the pool of IDIQ contracts.
 - The top four consultants advance to Tier 3.
- Tier 3 – Remaining consultants are scored based on information provided in their task order query.
 - Proposed Delivery Date – consultants are provided the opportunity to propose a delivery date earlier than our required completion date. Not all projects may be accelerated. Support Services may alter this date based on weekends, holidays and/or other factors to best meet the needs of the project.
 - Experience – consultants are asked report specific experience relevant to the project. These responses are evaluated and scored.
 - Consultant Past Performance Rating – the consultants’ scores from the CPPR System over the previous five years are averaged.
- Final Scores – The scores from Tier 2 and Tier 3 are weighted to generate a final score as follows:
 - Deliverables Due – 20%
 - Work Issued in Past 12 Months – 15%
 - Proposed Delivery Date – 20%
 - Experience Relevant to Project – 15%
 - Consultant Past Performance Rating – 30%
- Consultant Ranking and Recommendation for Selection
 - Once the consultants are ranked by final score, the Real Estate Section Task Manager has an opportunity to review the responses and provide comments to the Real Estate Administrator.
 - The Real Estate Administrator reviews the ranking and any comments provided, then recommends a consultant or consultants for selection.
 - Should the Real Estate Administrator wish to recommend a consultant or consultants other the highest ranked, a justification will be provided the Chief, Project Development Division along with the recommendation for selection.

Insurance

During the term of the contracts the consultants will carry professional liability/errors and omissions insurance in the amount of **\$300,000**. This insurance will be written on a “claims made” basis.
