CONTRACT NO. 4400005141

STATE PROJECT NO. H.009520

LA 3168: NEW BRIDGE @ BNSF-US 90 (LAFAYETTE)

ROUTE LA 3168

LAFAYETTE PARISH

QUESTIONS AND ANSWERS

Q1.) Can DOTD provide more information regarding the project scope and how bridge rating will be needed/utilized? Typically line and grade does not require a PE with ten years in bridge design in addition to two years in bridge rating. Also, can you have two separate people?

A1.) We require a minimum of ten years of experience for all contracts involving structural design. The additional experience in bridge rating is required because of all new structures must have an as-designed bridge rating included in the final plans. Yes, as long as the work is supervised by someone that meets our minimum qualifications (ten years structural experience).
