**Question: Does the payment term schedule identified in Section 6.3, Billing and Payment, apply to debris monitoring services? If so, please clarify how the schedule will apply towards invoicing (which is time and materials based).**

**Response: Yes, the schedule applies to the debris monitoring services. However, the schedule does not apply to invoicing. The invoices will not be further adjusted by the schedule. When the work is complete, the schedule will be used to determine how much of the retainage will be released to the contractor.**
