Q2. Is it anticipated that SUE Services will be required. If so, will SUE services be provided by DOTD?

A2. SUE services are not anticipated at this time. If so, it is expected to be provided by DOTD.

Q3. Will Bridge Borings be provided by DOTD?

A3. Geotech/Soil Borings will be provided by DOTD.

Q4. Is the hydraulic analysis only for the existing structure? If it is determined that a new bridge will be required, will DOTD provide the hydraulic analysis for this also?

A4. The slab span would likely be used for the existing bridge widening and replacement. The hydraulic analysis should be similar for both alternatives. DOTD will provide the hydraulic analysis for the new slab span bridges and may update them for bridge widening if needed.

Q5. If a new bridge is determined to be required, will the design of the new bridge be included or added as a supplement to the fees should bridge design be needed?

A5. If required, the bridge widening or replacement would be authorized by a Supplemental Agreement.

Q6. Will roadway lighting design be included as part of this project?

A6. At this time there are no plans to include roadway lighting design.
